## EPA LEVELS OF PROTECTION (Limited-Use Chemical Resistant Suit Options)

### Level A

Vapor protective suit (meets NFPA 1991).  
Pressure-demand, full-facepiece SCBA.  
Inner chemical-resistant gloves, chemical-resistant safety boots, two-way radio communication.  
OPTIONAL: Cooling system, outer gloves, hard hat.  
**Protection Provided:** Highest available level of respiratory, skin, and eye protection from solid, liquid and gaseous chemicals.  
**Used When:** The chemical(s) have been identified and have a high level of hazards to respiratory system, skin and eyes. Substances are present with known or suspected skin toxicity or carcinogenicity. Operations must be conducted in confined or poorly ventilated areas.  
**Limitations:** Protective clothing must resist permeation by the chemical or mixtures present. Ensemble items must allow integration without loss of performance.

### Level B

Liquid splash-protective suit (meets NFPA 1992).  
Pressure-demand, full-facepiece SCBA.  
Inner chemical-resistant gloves, chemical-resistant safety boots, two-way radio communications Hard hat.  
OPTIONAL: Cooling system, outer gloves.  
**Protection Provided:** Provides same level of respiratory protection as Level A, but less skin protection. Liquid splash protection, but no protection against chemical vapors or gases.  
**Used When:** The chemical(s) have been identified but do not require a high level of skin protection. Initial site surveys are required until higher levels of hazards are identified. The primary hazards associated with site entry are from liquid and not vapor contact.  
**Limitations:** Protective clothing items must resist penetration by the chemicals or mixtures present. Ensemble items must allow integration without loss of performance.

### Level C

Support Function Protective Garment (meets NFPA 1993).  
Full-facepiece, air-purifying, canister-equipped respirator.  
Chemical resistant gloves and safety boots, two-way communications system, hard hat.  
OPTIONAL: Faceshield, escape SCBA.  
**Protection Provided:** The same level of skin protection as Level B, but a lower level of respiratory protection. Liquid splash protection but no protection to chemical vapors or gases.  
**Used When:** Contact with site chemical(s) will not affect the skin. Air contaminants have been identified and concentrations measured. A canister is available which can remove the contaminant. The site and its hazards have been completely characterized.  
**Limitations:** Protective clothing items must resist penetration by the chemical or mixtures present. Chemical airborne concentration must be less than IDLH levels. The atmosphere must contain at least 19.5% oxygen.  
**Not Acceptable for Chemical Emergency Response**

### Level D

Coveralls, safety boots/shoes, safety glasses or chemical splash goggles.  
OPTIONAL: Gloves, escape SCBA, face-shield.  
**Protection Provided:** No respiratory protection, minimal skin protection.  
**Used When:** The atmosphere contains no known hazard. Work functions preclude splashes, immersion, potential for inhalation, or direct contact with hazard chemicals.  
**Limitations:** This level should not be worn in the Hot Zone. The atmosphere must contain at least 19.5% oxygen.  
**Not Acceptable for Chemical Emergency Response**

### DuPont™ Tyvek® 400 Coveralls

- Ideal for: lead abatement, asbestos abatement, mold remediation, general maintenance and many more
- Excellent abrasion resistance, stops particles down to one micron
- Breathable inherent barrier protection against hazardous dry particles, aerosols and non-hazardous light liquid splash
- Comfort fit design enables a greater range of movement, improves mobility, provides a more tailored fit, easier to get on and off, and is reinforced in high-stress areas for fewer blowouts
- Utilizes a longer zipper for easier donning and doffing and elastic waist to better position garment
- Serged seams
- 25 per case

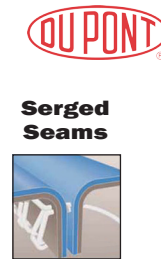

<b>Item #1412(size)</b>	MD-XL	Standard Coverall	<b>\$97.75/CS</b>
<b>Item #1417(size)</b>	MD-XL	EWA	<b>\$136.60/CS</b>
<b>Item #1428(size)</b>	SM-XL	EWA, Hood	<b>\$137.00/CS</b>
<b>Item #1414(size)</b>	MD-XL	EWA, Hood, Boots	<b>\$131.75/CS</b>

Available at additional cost 2XL-5XL

### DuPont™ ProShield® 10 Coveralls

- Ideal for: general maintenance, janitorial cleaning and other dirty work
- Provide workers with quality coverall for the messiest work assignment, while cutting costs for disposable garments
- ProShield® Basic spunbond-meltblown-spunbond (SMS) garments, are made to the high quality standards
- A comfort fit design is engineered for enhanced worker range of motion and durability in use
- Serged seams
- 25 per case

<b>Item #PB120SWH(size)</b>	MD-XL	Standard Coverall	<b>\$73.50/CS</b>
<b>Item #PB122SWH(size)</b>	MD-XL	EWA, Hood, Boots	<b>\$89.00/CS</b>

Available at additional cost 2XL-5XL

### DuPont™ Tyvek® 400 D Coveralls

- Provides an ideal balance of comfort, durability, and protection for workers
- White DuPont™ Tyvek® fabric on front is composed of flashspun high-density polyethylene, which creates a unique non-woven material
- Denim blue DuPont™ ProShield® Basic fabric on back is optimized for comfort, softness and breathability
- Provides an ideal balance of protection, durability and comfort compared to any limited use fabric technology
- Comfort fit design helps enable a greater range of movement
- Serged seams
- Elastic wrists and ankles (EWA)
- 25 per case

<b>Item #TD125SWB(size)</b>	MD-XL	<b>\$137.50/CS</b>
-----------------------------	-------	--------------------

Available at additional cost 2XL-4XL

**MICROCHEM by AlphaTec 1500 Coveralls**

- Feature a high quality three layer breathable SMS fabric which helps to reduce the risk of heat stress
- Proven protection from airborne and solid particulates, limited protection against liquid spray
- Coveralls are proven to filter 100% of particles larger than three microns
- Its three thread overlocking serged seams offer an excellent balance of a strong seam with a good particle barrier
- Two way front zipper with stormflap
- Ideal for applications such as general maintenance, manufacturing, insulation laying, and asbestos abatement
- 3 piece respirator fit hood (MG1528 and MG1514 only)
- Elastic wrists and ankles (EWA)
- 25 per case

**Serged Seams**

**MICROCHEM by AlphaTec 2000 Coveralls**

- Great to wear for applications such as paint spraying, pharmaceuticals, mining, pesticides
- These coveralls offer exceptional particle and liquid spray protection
- Features elasticated waist, wrists, and ankles, finger loops, a two way front zipper closure with a resealable stormflap
- Low linting
- Optimized body fit improves wearer comfort and safety
- Tested according to ASTM 1671 for resistance to penetration of blood and bloodborne pathogens
- 3 piece respirator fit hood (MG2028 and MG2014 only)
- Anti-static treated
- Bound seams
- 25 per case

**MICROCHEM by AlphaTec 2000 TS Plus Coveralls**

- Provides both protection and comfort
- Exceptional liquid and particulate protection
- Ideal for a wide range of industrial applications
- 3 piece elasticated respirator fit hood with chinstrap
- Elastic waist, wrist (with thumb loops), and ankles
- Liquid penetration resistance and barrier to fine particulates (>0.01 µm\*)
- Meets standards for ASTM F1671 and EN 14126:2003 resistance to penetration of blood, body fluids and bloodborne pathogens
- Taped seams
- One-way front zipper with resealable storm flap
- Can offer type 4 protection (protection against saturation of liquid chemicals)
- Anti-static tested according to EN 1149-5 and AATCC 76
- 25 per case

## West Chester PosiWear® Breathable Advantage Coveralls

- Constructed of microporous film bonded to spunbond polypropylene
- The material offers good resistance to dry particulates and chemical-based sprays without sacrificing breathability
- Serged seams
- Ideal for manufacturing, pressure washing, painting, resurfacing or fiberglass handling
- Extremely low linting and anti-static
- Zipper front closure for easy donning
- 25 per case

### Serged Seams

### Standard Coveralls

**Item #3600(size)** MD-XL **\$84.75/CS**

### Coveralls with EWA and Hood

**Item #3606(size)** MD-XL **\$102.75/CS**

### Coveralls with EWA, Hood and Boots

**Item #3609(size)** MD-XL **\$112.00/CS**

Available at additional cost 2XL-5XL

## West Chester Polypropylene Coveralls

- Standard-weight spunbond polypropylene coverall
- Lightweight protection against dry particulates, keeping dirt and debris off the body or in the suit
- Serged seams
- Provides a high level of comfort and breathability with cost effective protection
- Features a full length zipper front for easy donning
- 25 per case

### Serged Seams

### Standard Coveralls

**Item #6412(size)** White MD-XL **\$37.00/CS**

### Coveralls with EWA and Hood

**Item #6414(size)** White SM-XL **\$40.50/CS**

### Coveralls with EWA, Hood and Boots

**Item #6414BL(size)** Blue LG-XL **\$42.50/CS**

Available at additional cost 2XL-5XL

### Welded Seams

## MICROCHEM by AlphaTec 2500 STANDARD Coveralls

- Fabric is breathable, anti-static, and low linting for comfort and reduced risk of contamination
- Unique material offering exceptional mechanical strength
- Highest levels of protection according to EN14126: 2003 for barrier to infective agents and ASTM F 1671 for penetration of bloodborne pathogens
- Great liquid and particulate protection
- 3-piece hood
- Elastic waist, wrists and ankles
- Finger loops
- Red single zipper with resealable storm flap
- Ultrasonically welded seams
- 25 per case

**Item #MG2528(size)** MD-XL **\$420.00/CS**

Available at additional cost 2XL-5XL

## KLEENGUARD\* A20 Coveralls

- Typical uses: laboratories, decontamination modesty garment, remediation, pesticides, heavy dust environments
- REFLEX\* design
- Patented MICROFORCE™ Barrier SMS fabric
- Barrier protection against dry particulates
- Seamless front to provide more protection in the primary exposure areas
- Passes NFPA 99 criteria for anti-static materials
- Zipper flap
- Serged seams
- 24 per case

<b>Item #4900(size#)</b>	MD-XL	<b>\$99.00/CS</b>

*Available at additional cost 2XL-4XL*

When ordering your Kimberly-Clark coveralls, add the appropriate size code number to the end of the base item number. See the chart at the top of this page.

## KLEENGUARD\* A60 Coveralls

Protection against bloodborne pathogens in forensic or other environments where exposure to blood is possible. KLEENGUARD\* A60 also provides protection against some chemicals.

- Typical uses: animal research, emergency medical response, crime scene cleanup, embalming/forensics, tank cleaning, fiberglass manufacturing, liquid handling, food processing
- REFLEX\* design
- Three-layer fabric construction features a middle layer of microporous film that allows heat and sweat vapor to escape while protecting against dry particulates and liquid
- Passes ASTM F1670/1671‡ testing for penetration of blood, body fluids and bloodborne pathogens
- Seamless front provides more protection in primary exposure areas
- Taped storm flap
- Outer layer provides protection of film barrier against tearing and abrasion
- 24 per case

<b>Item #4500(size#)*</b>	MD-XL	EWA	<b>\$168.00/CS</b>
<b>Item #4502(size#)</b>	MD-XL	EWA, Hood	<b>\$178.00/CS</b>

*\*Note: (To order size 4XL use Item #45007KC)*

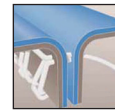

*Available at additional cost 2XL-4XL*

**West Chester Economical Polypro Lab Coat**

- Breathable and designed for applications in non-hazardous work environments
- Ideal for food and pharmaceutical industries
- Protection against dry particulates and dirt
- Single collar
- Open wrists

**Serged Seams**

- Snap front closures with one chest pocket, and one front side pocket
- 30 per case

**Item #6203(size) MD-4XL \$34.25/CS**

**Lakeland Disposable Polypro Rytex® Garments**

- Offers excellent barrier for dry particulate and light liquid splash
- Rytex® material offers high strength, flexibility, and durability
- Excellent abrasion resistance

**While Supplies Last**

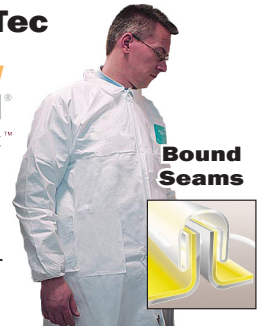

**Item #9201MIX(size) MD-5XL \$25.00/CS**  
Combination Rytex®, 50 per case

**MICROCHEM by AlphaTec 2000 Lab Coat**

- Extremely soft and lightweight
- Offers particle and liquid spray protection
- One left chest pocket, one lower right pocket
- Low linting

- Anti-static
- Front zipper closure
- 30 per case

**Item #MG201210(size) MD-XL \$110.40/CS**  
Available at additional cost 2XL-3XL

**DuPont™ Tyvek® 400 Garments**

DuPont Tyvek® is an inherent barrier to small-sized hazardous particles. Protection is built into the fabric itself. There are no films or laminates to abrade or wear away. Comfort fit design enables a greater range of movement while stretching and bending, improves mobility, provides a more tailored fit, easier to get on and off, and is reinforced in high-stress areas for fewer blowouts. Serged seams.

**Lab Coat**

Collar, open wrists, snap closure and two pockets  
30 per case

**Item #1210(size) SM-XL \$131.00/CS**  
Available at additional cost 2XL-5XL

**Frock**

Elastic wrists and front snap closure, 30 per case

**Item #TY216SWH(size) SM-XL \$141.00/CS**  
Available at additional cost 2XL-5XL

**Pants**

Elastic Waist, 50 per case

**Item #1812(size) SM-XL \$162.00/CS**  
Available at additional cost 2XL-6XL

**Long Sleeve Shirt**

Open wrists and snap closure, 50 per case

**Item #1612(size) SM-XL \$188.00/CS**  
Available at additional cost 2XL-4XL

**Smock**

Self ties, 41" long  
50 per case

**While Supplies Last**

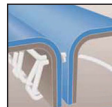

**Item #6009(size) MD, XL \$69.00/CS**

**Lakeland Disposable Polypro Rytex® Pants**

- Polypropylene coated polypro garments offer excellent barrier for dry particulate and light liquid splash
- Rytex® material offers high strength, flexibility, and durability all at affordable prices
- Excellent abrasion resistance
- 50 per case

**Serged Seams**

**While Supplies Last**

**Item #9301(size) LG, 3XL-5XL \$45.00/CS**

**Polypropylene Smock Apron with Ties**

- Economical, standard weight polypropylene smock apron
- Offers lightweight protection against dry particulates
- Elastic wrap-around waist ties for comfortable fit
- Open wrists
- Elastic neck ties
- One size fits most
- 50 per case

**While Supplies Last**

**Item #U3000 White \$15.00/CS**  
**Item #U3000B Blue \$35.00/CS**

## KLEENGUARD\* A20 Sleeves

- Breathable patented MICROFORCE\* barrier
- SMS fabric
- 21" length
- 100 pair per case

Item #36870 **\$95.00/CS**

## Polypropylene Sleeves

- Polypropylene sleeve
- Ideal for food processing
- Elastic at both ends
- 18" length
- 100 pair per case

Item #AGNWI **\$20.75/CS**

## Polyethylene Sleeves

- Polyethylene sleeve
- Economical choice for liquid protection
- Elastic at both ends
- Latex free
- 18" length
- 1000 per case

Item #DSWP18 **\$36.50/CS**

## KIMTECH PURE\* M7 Veil

- Single use face veil
- Hygienic alternative to reusable veils
- Exceptional breathability
- Low linting polyethylene film for filtration
- ISO Class 7 rated for cleanroom environments
- Knitted headband
- 13"W x 15"L
- 150 per case

Item #62757 **\$89.25/CS**

## DuPont™ Tyvek® Hood

- For lead and asbestos abatement, spray painting, food processing
- Inherent barrier to small-sized hazardous particles
- No films or laminates to abrade or wear away
- Balanced protection with durability and comfort
- Hood with elastic around face opening
- Shoulder length
- Serged seams
- 100 per case

Item #2903 **\$98.00/CS**

## DuPont™ Tyvek® Sleeve with Elastic Ends

- For lead and asbestos abatement, spray painting, food processing
- Balanced protection with durability and comfort
- Elastic at both ends
- Comfort fit design enables greater range of movement
- Serged seams
- 18" length
- 100 per case

Item #2501TS **\$97.00/CS**

## KLEENGUARD\* A20 Apron w/ Ties

- Breathable patented MICROFORCE\* barrier apron
- 28"W x 40"L
- NFPA 99 compliant anti-static material
- SMS fabric
- 100 per case

Item #36550 **\$116.00/CS**

## KLEENGUARD\* Lab Coat

- Lightweight lab coat
- Keeps workers cool and comfortable on the job
- Neck to knee coverage
- 40" length
- Snap front closure with elastic wrists
- 21 per case

Item #2393(size#)  
3XL(6), 4XL(7), 6XL(9)  
**\$39.50/CS**

**While Supplies Last**

## Tyvek® 400 Bib Apron

- For lead and asbestos abatement, spray painting, food processing
- Inherent barrier to small-sized hazardous particles
- Protection is built into the fabric
- No films or laminates to abrade or wear away
- Neck loop and waist tie
- Bound seams
- 28" x 36"
- 100 per case

Item #601AP **\$118.00/CS**

## Gray Shoe & Boot Covers

- Flash spun high density polyethylene
- Non-skid bottom
- Elastic top

**Item #4500** **\$127.25/CS**

Shoe Covers 5" High, 200 per case

**Item #FC454SGY** **\$114.00/CS**

Boot Covers 18" High, 100 per case

## White Shoe Covers

- Elastic top
- 200 per case

**Item #TY450SWH** 5" High **\$99.00/CS**

**Item #TY450SWHLG** 8" High **\$99.00/CS**

## White Boot Covers w/ Ties

- 20" height
- Ties at top
- 100 per case

**Item #3560510(size)** MD - XL **\$199.00/CS**

## White Boot Covers

- Flash spun high density polyethylene
- 18" height
- Elastic top
- One size fits most
- 50 pair/case

**Item #TY454SWH** **\$76.50/CS**

## DuPont™ Tyvek® 400 Shoe & Boot Covers

DuPont™ Tyvek® protective fabric with a skid resistant friction coating. Used exclusively for shoe and boot covers and skid-resistant booties in select Tyvek® coveralls. Composed of flash spun high density polyethylene which provides excellent protection, durability, and comfort. Protects against light liquid splash and dry particulates. Non-skid bottom, serged seams.

## DiVal Disposable Latex 12" Boot Covers

- Stretchable, seamless boot cover
- 100% Waterproof
- Reusable
- Economical for single use
- Ribbed textured sole
- 50 pairs per case

**Item #24009002(size)**

Size SM-3XL

**\$5.55/PR**

## Heavy-Duty 5 mil Boot & Shoe Covers w/ Ties

- Clear heavy-duty 5 mil polyethylene boot and shoe covers with ties
- Easily slip over shoes and boots with a height of 18"
- 50 per dispenser box
- 10 boxes per case
- Ties at top of shoe cover provide added protection from dry particulates and light liquid splash
- Can also be used between overshoe boots and work boots

**Item #B300**

**\$12.80/BX**

## 100% Polypropylene Non Skid Shoe Covers

- Blue with tread white bottom
- Elastic opening provides a snug fit around the ankle
- White non-skid sole gives added traction
- Latex free
- Easily fits over shoes
- 6" tall
- 150 pair per dispenser case

**Item #SCNWI** **\$38.05/CS**

Size LG (13")

**Item #SCNWIXL** **\$38.05/CS**

Size XL (15")

**Item #SCNWIXXL** **\$39.10/CS**

Size 2XL (16.5")

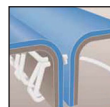

## Lakeland MicroMax® Shoe & Boot Covers

- Economical, general purpose shoe covers provide microporous protection from dirt, grease, grime and light chemical splash
- Great for environments where hazardous or nonhazardous contaminants may be present

- MicroMax® NS is strong, wet or dry
- Vinyl sole allows for great abrasion resistance
- Elastic top
- Serged seams
- 200 pair per case

**Serged Seams**

## Lakeland

### White 17" Boot Covers

**Item #CTL903(size)** **\$135.00/CS**

Size SM/MD, LG/XL

Available at additional cost: 2XL

### White 4" Shoe Covers

**Item #CTL904(size)** **\$205.00/CS**

Size SM-XL

### White 10" Boot Covers

**Item #CTL905(size)** **\$225.00/CS**

Size MD-XL

## DuPont™ ProShield® 6 SFR Coveralls

DuPont™ ProShield® is a disposable overgarment designed to help protect and preserve primary flame resistant garments.

- Intended to be worn over primary flame resistant garments to provide a barrier against non-hazardous particles and aerosols
- Flame retardant treated, not inherently flame resistant
- Serged seams
- 25 per case

**Serged Seams**

**Item #8412(size)** MD-XL *Standard Coverall*  
**Item #8428(size)** MD-XL *EWA, Hood*

**\$155.00/CS**  
**\$169.75/CS**

Available at additional cost 2XL-6XL

## KLEENGUARD\* A65 Standard FR Coveralls

While not primary fire protection gear, KLEENGUARD\* A65 coveralls are designed to be worn in areas where exposure to sparks is possible.

- Typical uses: welding, oil refining, utilities, grinding
- Three-layer fabric construction
- Middle layer of microporous film that allows heat and sweat vapor to escape while protecting against dry particulates and liquid
- ANSI/ISEA 101-1996 sizing standard
- Comfortable, breathable and durable fabric resists tearing
- Complies with the flame resistance requirements cited by paragraph 6.1 of CAN/CGSB-155.20-2000
- Flame resistant compliant per NFPA 701 FLAME PROPAGATION TEST
- NFPA 99 compliant anti-static material
- Zipper front
- 25 per case\*

**Item #4531(size#)** MD(2)-XL(4) *FR Coverall* **\$161.25/CS**  
**Item #4532(size#)** MD(2)-XL(4) *FR Coverall, Hood* **\$175.85/CS**

Available at additional cost 2XL(5)-4XL(7) \*These sizes packed 21/case

## Lakeland Pyrolon® Plus 2 FR Coveralls

- Pyrolon® Plus 2 has been tested to ASTM F1930
- When worn over thermal-ly protective coveralls, Pyrolon® Plus 2 can reduce body burn injury
- Attached hood
- Zipper
- 25 per case
- Strong, wet or dry, over other traditional FR disposable garments
- Cool and comfortable garment to wear
- For work environments where environmental and health related contaminants are present

**Item #7428B(size)** **\$175.20/CS**

Sizes SM-XL, EWA, Hood  
 Available at additional cost 2XL-5XL

**Item #7414(size)** **\$184.00/CS**

Sizes MD-XL, Hood, Boots  
 Available at additional cost 2XL-5XL

## Pyrolon® Disposable CRFR Coveralls

- Designed to be worn over woven thermally protective coveralls, such as woven Nomex®
- For environments where flash fire is a concern
- Self extinguishing, won't melt or drip
- Light chemical splash protection
- Pyrolon® CRFR garments bar contaminating flammables like paint, oil and grease, hazardous liquids and contaminants, and dry particulates from penetrating to inner clothing
- Disposable and chemical resistant
- Meets NFPA 2113 requirements
- Elastic wrists and ankles (EWA)
- 6 per case

**Item #37417(size)** **\$167.75/CS**

Sizes MD-XL, EWA  
 Available at additional cost 2XL-5XL

**Item #37428(size)** **\$198.00/CS**

Sizes MD-XL, EWA, Hood  
 Available at additional cost 2XL-5XL

## West Chester Posi-Wear FR Coveralls

Posi-Wear® FR combusts and disperses away from the primary protective garment.

- Soft, spunlace self-extinguishable material is also highly oil repellent
- Use only as a secondary garment in oil refining, welding or utilities applications where sparks might be present
- Anti-static and ANSI sized
- Meets NFPA 701 specifications
- Open wrists and ankles
- Laydown collar
- 25 per case

**Item #3100(size)** LG-XL **\$165.00/CS**

Available at additional cost 2XL-5XL

## DuPont™ Tychem® 2000 Coveralls

DuPont™ Tyvek® QC is a lightweight, durable fabric. Tyvek® QC utilizes the strength of DuPont™ Tyvek® fabric and a polyethylene coating. Tychem® QC fabric provides at least 30 minutes of protection against 42 chemical challenges. Tychem® QC is used for light splash protection in a variety of industrial environments. Tychem® QC is yellow for high visibility.

### Serged Seams

A seam produced when multiple threads are inter-locked around the raw edges of two pieces of material for a strong, stress-resistant seam.

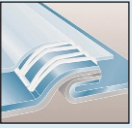

### Bound Seams

Tightly sewn with a reinforced outer binding to increase seam strength and barrier. For potential misting exposure of non-hazardous liquids or particle penetration through the seam.

### Taped Seams

Both sewn and taped to provide strong chemical resistance against heavy liquid splashes and tough seam stress. A sewn seam is covered with a strip of compatible material by heat-sealing.

### Welded Seams

This type of sealed seam is produced when materials are lapped and thermally welded. There are no fillers, thread or needle holes.

## DuPont™ Tychem® 6000 Protective Apparel

- Made of a proprietary barrier film laminated to a Tyvek® substrate
- Provides at least 30 minutes of protection against over 181 challenge chemicals including chemical warfare agents and toxic industrial chemicals
- Strong, durable and lightweight

### Gown and Apron are:

- Partial body chemical protective clothing, Category III, Type PB [3]
- EN 14126 (barrier to infective agents)
- Anti-static treatment (EN 1149-1) - on inside
- Gray color

## MICROCHEM by AlphaTec 2300 Coveralls

- This coverall features wrists with finger loops, elastic ankles and a two way front zipper with a resealable storm flap cover
- Bound seams
- Constructed of a polyethylene (PE) barrier coating with a bi-component nonwoven inner layer
- Creates a lightweight feel with excellent durability
- Excellent barrier to many harmful chemicals
- Highly visible bright yellow color for improved worker safety
- Anti-static
- Great for applications such as environmental clean up, sewage purification installations, industrial and chemical manufacturing
- 25 per case

## KLEENGUARD\* A70 Splash Coveralls

- KLEENGUARD A70 Coveralls feature a liquid-resistant extra-long zipper, taped storm flap, respirator fit hood and a soft, quieter fabric
- The primary chemical barrier is a 1.5 mil polyethylene film coating on a spunbond polypropylene reinforcement layer, which adds strength
- A wick away lining for enhanced comfort
- Meets NFPA 99 criteria for anti-static materials
- Excellent acid base barrier
- Patented REFLEX\* design is 7½ times less likely to rip out than ANSI minimums, provides 12% more chest room and 6% longer body length
- Typical uses include hazardous waste remediation, environmental cleanup, acid/caustic handling, biohazardous clean up, tank cleaning
- Bound seams
- 12 per case

- Item #0981(size#)** Sizes MD(2)-XL(4) **\$108.00/CS**

Available at additional cost 2XL(5KC)-5XL(8)

## Bib Apron

A lightweight and durable fabric, DuPont™ Tychem® QC utilizes the strength of DuPont™ Tyvek® fabric and a polyethylene coating.

- Provides at least 30 minutes of protection against 42 chemical challenges
- 28" width x 36" length
- Provides enhanced frontal protection
- Bound seams around neck
- One size fits most
- Ties at waist
- 24 per case

**Item #650AP** **\$179.00/CS**

## Tychem® 2000 Sleeve

A lightweight and durable fabric, DuPont™ Tychem® QC utilizes the strength of DuPont™ Tyvek® fabric and a polyethylene coating.

- Provides at least 30 minutes of protection against 42 chemical challenges
- Elastic at both ends (bicep and wrist) for arm protection
- 18" long
- One size fits most
- Bound seam
- 200 per case

**Item #2501PC** **\$198.00/CS**

## DuPont™ Tychem® 4000 Coveralls

- Delivers effective protection against a range of chemical environments
- Provides at least 30 minutes of protection against 160 chemical challenges
- Tychem® SL, utilizing Saranex® 23-P film laminated to Tyvek® brand protective material, is a lightweight, comfortable garment specifically designed for easy wear
- Ideal for chemical mixing, remediation, emergency medical response, paint spraying, and radioactive environments
- Storm flap covers zipper, which can be sealed by the wearer with adhesive strip to prevent intrusion at zipper
- Elastic opening for tighter fit at wrist
- Elastic wrists and ankles (EWA)

## DuPont™ Tychem® 5000 Level B Suit

- Composed of a multi-layer film barrier laminated to a durable 2.0 oz/yd<sup>2</sup> polypropylene substrate
- Fabric is strong and durable for rigorous activities and rugged situations involving liquid splash
- Provides barrier to a broad range of chemicals
- Encapsulated design provides protection from liquid splash exposure for both the wearer and respiratory equipment
- Provides coverage from overhead liquid splash, does not provide vapor protection
- Taped seams provide a strong chemical resistance, sewn seam covered with a strip of compatible chemical-resistant material through heat sealing
- Standard 20 mil PVC faceshield
- Rear entry design keeps closure away from direct contact with frontal chemical exposure, provides ability to change air bottle on SCBA without removing the entire garment
- Storm flap covers zipper which can be secured by the wearer with rugged hook-and-loop material to prevent intrusion at zipper
- Elastic opening for tighter fit at wrist
- Integrated socks composed of garment material
- Attached flaps are designed to cover boot tops to help reduce potential for liquid intrusion
- 6 per case

## DuPont™ Tychem® 6000 FR Coveralls, Overalls and Apron

DuPont™ Tychem® ThermoPro garments provide triple hazard protection from liquid-chemical splash, flash fire, and electric arc. Tychem® ThermoPro garments are designed to combine the trusted chemical protection of Tychem® and thermal/arc protection of Nomex® into a single layer garment. Tychem® ThermoPro garments are designed to help provide industrial workers and HAZMAT responders with permeation protection against a broad range of toxic industrial chemicals and chemical warfare agents and to provide escape time from flash fires and protection from electric arc. Tychem® ThermoPro fabric provides at least eight hours breakthrough protection against 17 of 21 standard ASTM F1001 chemicals and at least 30 minutes of protection for more than 180 chemical challenges including chemical warfare agents. The arc rating of Tychem® ThermoPro fabric is 15 cal/cm². This exceeds the NFPA 70E Hazard Risk Category 2 requirement.

**Coveralls:** Feature attached respirator-fit hood with drawstring to pull tightly around respirator. Longer zipper extends to chin for complete coverage of neck area. Storm flap covers zipper with can be secured by the wearer with rugged hook-and-loop material to prevent intrusion at zipper. Elastic wrists & ankles (EWA). Bright orange and gray available. Gray includes integrated boot. 2 per case.

**Item #TP198TOR(size)** SM-XL EWA, Hood **\$675.00/CS**

## DuPont™ Tychem® 9000 Coverall

- Offers wide-ranging protection backed by extensive fabric permeation barrier testing
- Tychem® BR fabric provides at least 30 minutes of protection against more than 280 chemical challenges, including chemical warfare agents
- Features tear, puncture and abrasion resistant fabrics
- Certified compliant to the 2012 edition of NFPA 1992, Standard on Liquid Splash-Protective Ensembles and Clothing for Hazardous Materials
- Certified compliant to the 2012 edition of 1994, Class 2 Standard on Protective Ensembles for First Responders to CBRN Terrorism Incidents by independent third part certification organization
- Taped seams
- Integrated SCBA face piece seal provides liquid and vapor protection without respirator encapsulation
- Rear entry design
- Liquid resistant, extra long zipper
- Storm flap covers zipper which can be secured by the wearer with rugged hook-and-loop material
- Attached internal gloves composed of five layer laminate film
- Neoprene gloves
- Integrated socks composed of garment material
- Attached flaps are designed to cover boot tops to help reduce potential for liquid intrusion
- 1 per case

## DuPont™ Tychem® 9000 Encapsulated Level B Suit

- Tychem® BR offers wide-ranging protection backed by extensive permeation barrier testing
- Fabric provides at least 30 minutes of protection against more than 280 chemical challenges, including chemical warfare agents
- Features tear, puncture and abrasion resistant fabrics for lasting protection
- Designed for enhanced comfort and ease of movement
- Encapsulated design provides protection from liquid splash exposure for both the wearer and respiratory equipment
- Provides coverage from overhead liquid splash, does not provide vapor protection
- Taped seams provide a strong chemical resistance, sewn seam covered with a strip of compatible chemical-resistant material through heat sealing
- Standard 20 mil PVC faceshield
- Rear entry design keeps closure away from direct contact with frontal chemical exposure, provides ability to change air bottle on SCBA without removing the entire garment
- Storm flap covers zipper with rugged hook-and-loop material to prevent intrusion at zipper
- Elastic opening for tighter fit at wrist
- Integrated socks composed of garment material
- Attached flaps are designed to cover boot tops to help reduce potential for liquid intrusion
- 1 per case

**Item #BR528TYL(size)** MD-XL **\$340.00/CS**  
Available at additional cost 2XL-4XL

**DuPont™ Tychem® 10000 Encapsulated Level B Suit**

Tychem® TK is specifically developed for protection against toxic, corrosive gases, liquids, and solid chemicals. This high-performance chemical barrier fabric is ideally suited for industrial, HAZMAT, and domestic preparedness applications. An extremely durable fabric that's puncture and tear resistant, its barrier provides at least 30 minutes of protection against over 320 chemical challenges. Excellent permeation data from stringent ASTM testing substantiates the uncompromised protection available with Tychem® TK.

- Features an encapsulated design that provides protection from liquid splash exposure for both the wearer and respiratory equipment
- Also provides coverage from overhead liquid splash (does not provide vapor protection)
- Taped seams provide strong chemical resistance against heavy liquid splashes
- A sewn seam is covered with a strip of compatible chemical-resistant material through heat sealing
- Front entry design allows wearer to partially don garment (maintain standby position) without assistance
- Elastic opening for tighter fit at wrist
- Expanded back to accommodate self-contained air breathing apparatus (SCBA)
- Liquid resistant, extra long zipper to increase garment opening and aid donning and doffing
- Storm flap covers zipper which can be secured by the wearer with rugged hook-and-loop material to prevent intrusion at zipper
- Attached flaps are designed to cover boot tops to help reduce potential for liquid intrusion
- Integrated socks composed of garment material
- Standard 40 mil PVC face shield
- 1 per case

**Taped Seams**

**Item #TK527TLYBN(size)** MD-XL **\$385.00/CS**  
Available at additional cost 2XL-4XL

**DuPont™ Tychem® 10000 Encapsulated Level A Suits**

Tychem® TK suits have premium protection against toxic and corrosive gaseous, liquid and solid chemicals. It is the leading garment chosen by HAZMAT responders worldwide. Tychem® TK has extremely durable, puncture and tear resistant fabric. Tychem® TK provides at least 30 minutes of protection against over 320 chemical challenges. All Tychem® TK encapsulated suits are TAA compliant.

**Features:**

- Double taped seams
- Extra wide three-layer faceshield (PVC 40 mil/Teflon 5 mil/PVC 20 mil)
- Double storm flaps with hook-and-loop closure
- Gas-tight PVC zipper closure
- Two Auer® exhaust valves
- Expanded back
- Internal adjustment belt
- Attached internal Barrier® gloves
- Attached outer butyl or Viton gloves
- Knee wear pads
- Attached socks
- Outer boot flaps with elastic

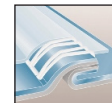

**Front Entry** design allows wearer to partially don garment (maintain standby position) without assistance. Expanded back to accommodate self-contained air breathing apparatus (SCBA).

**Rear Entry** design keeps closure away from direct contact with frontal chemical exposure and provides ability to change air bottle on SCBA without removing the entire garment. Expanded back to accommodate self-contained air breathing apparatus (SCBA).

**Taped Seams**

**Level A Chemical Suit Testing**

**We feature:**

- Pressure testing
- Visual inspection
- Replace damaged, worn or missing parts
- On-site service option
- Documented test results
- Brands we can test, but are not limited to: DuPont, Trelchem, 3M, ONESuit and Lakeland

#1SA

**ONESuit® Level A HAZMAT Suits**

SAINT-GOBAIN

ONESuit® is engineered to meet the protection and comfort needs of those working in the most dangerous environments. Lightweight design combines superior protection and maximum user comfort. ONESuit® is reusable and decontaminable with a 15-year minimum shelf life. Features a secondary visor, internal belting system, knee reinforcements and integral booties. No overcover. Includes ONEGlove® HAZMAT gloves which provide the highest available combination of physical and chemical protection.

ONESuit® Gard (#1SA) provides maximum protection against chemical and biological agents. Certified to NFPA 1991 standard with Liquefied Gas protection.

ONESuit® Flash (#1SF) was the first single-skin suit certified to protect against chemical flash fires and provides maximum protection against chemical and biological agents. Certified to NFPA 1991 with Flash Fire and Liquefied Gas protection.

**Item #1SA(size)** Gard SM-XL **\$1962.70/EA**

**Item #1SF(size)** Flash SM-XL **\$2785.70/EA**

Available at additional cost 2XL, 3XL

#1SF

**SHOWA® Viton® Chemical Resistant Gloves**

- Made of Fluoroelastomer rubber, a synthetic rubber which provides the highest permeation
- Provides superior resistance to highly corrosive acids
- Excellent for handling aliphatic and aromatic hydrocarbons
- Resistant to high molecular aromatic hydrocarbons such as Benzene, Toluene, Xylene and Polychlorinated Biphenyls (PCBs) of any protective material used to make gloves
- Viton® provides the ultimate combination of protection and dexterity
- Fully coated, unlined
- Smooth, standard finish
- Rolled cuff

**Item #892(size)** SM - 2XL **\$78.00/PR**

**Item #890(size)** LG (9) - 2XL (11) **\$169.00/PR**

**Silver Shield® Chemical Resistant Gloves**

- Silver Shield® is resistant to over 280 different chemicals including alcohols, aliphatics, aromatic, chlorines, ketones and esters
- Economical, most commonly used as a liner glove for added protection
- Gloves are ambidextrous
- Sizes 6(XS) - 8(M) are 14.5" long, size 9(L) is 16" long
- 2.7 mil. thick

**Honeywell**

**Item #SS104(size)** XS - 2XL **\$5.25/PR**

**North Butyl™ Unsupported Chemical Resistant Gloves**

- Highest permeation resistance to gas and water vapor for greater worker protection especially when handling toxic substances
- Flexible and sensitive, even at lower temperatures
- Curved finger and hand design provides a better fit for greater worker comfort
- Rough "Grip-Saf" finish is great for wet applications
- Rolled bead cuff

**Honeywell**

**Item #B161R(size#)** **\$27.75/PR**  
Size SM (7) - 2XL (11), 11" Length

**Item #B174R(size#)** **\$44.50/PR**  
Size SM (8) - XL (11), 14" Length

**Silver Shield® Apron & Coat**

- Five layer PE and EVOH construction
- Provides excellent chemical resistance to over 280 different chemicals including alcohols, aliphatics, aromatic, chlorines, ketones and esters
- Provides high performance protection in the most demanding applications
- Thin and lightweight, excellent for use under garments

Available at additional cost XL-4XL

## Chemical-Resistant ChemTape®

- Specially designed and tested adhesive tape for added barrier protection against hazardous chemicals at seams, zippers and other openings found on the chemical protective clothing, such as respirators, gloves, or boots
- Can be used to attach components of a protective ensemble, to reduce the possibility of gross liquid flow at interfaces and to repair tents and shelters

- ChemTape® is ideal when mid to high-range chemical protection is needed
- Rolls are 2" x 60 yards
- 24 rolls/case

**Item #99401** **\$32.75/RL**

 **Kappler®**

## Futura™ Safety Goggles

- Wrap-around sports style design for excellent panoramic vision
- Fits over most prescription eyewear
- Frosted brow guard reduces overhead glare
- Offers protection against dust, mist, and impact and chemical splash
- Indirect venting system along with high performance Uvextreme® anti-fog coating minimizes fogging in extreme environments

**Item #S345C** **\$7.70/PR**

**Honeywell**  
UVEX®

- Clear lens
- Meets ANSI Z87.1-2010 and CSA Z94.3 standards
- Latex free, clear lens

## Stealth® Safety Goggles

- Low profile design with soft, elastomer body that flexes and conforms to the face for a secure, comfortable, gap free fit
- Rx insert available
- Great impact resistance with 99% protection from UV rays Uvextreme® anti-fog coating and indirect ventilation system to minimize fogging
- Clear lens

**Item #S3960C** Neoprene Band **\$10.65/PR**  
**Item #S3960CI** Fabric Band **\$10.95/PR**

**Honeywell**  
UVEX®

- Latex free
- Meets ANSI Z87.1-2010 and CSA Z94.3 standards

## Flex Seal® Safety Goggles

- Lightweight, silicone body conforms to the face to assure the highest level of comfort and eye protection
- Low profile and optically correct polycarbonate lens provides full field of vision
- Pivoting headband clips permits the wearer to position the goggle on the hard hat or above the ears
- Fits over most prescription eyewear
- Uvextreme® anti-fog lens coating with indirect venting system to minimize fogging

**Item #S3400X** **\$14.05/PR**
