## Cynch Lok™ Pole Fall Restricting Device

Cynch-Lok™ features almost effortless adjustment. It allows you to easily hitch-hike poles (reposition, move or jump the strap upwards) with a hand position that's comfortable. It also moves past obstacles without difficulty. Exterior straps can be changed depending on the type and size of pole you're climbing. Interchangeability eliminates the need to purchase multiple devices and adds to Cynch-Lok's longevity by allowing you to replace components. Cynch-Lok's unique design cinches around a pole in the event of a cut-out or fall. When used correctly, it limits your fall distances in accordance with CSA standards. For distribution poles. Available in two sizes.
